INSTALLATION TIPS

THIRD PARTY FONT MANAGEMENT SOFTWARE

If you're using Suitcase, Master Juggler, Font Reserve or another other third party utility, it would be best if you follow the instructions that came with the utility.

MACINTOSH OSX INSTRUCTIONS

If you purchased and downloaded the fonts on our web site, unzip the archive if your browser has not already done so. Simply copy the fonts to the "Fonts" folder inside your "Library" folder or use Apple's FontBook utility.

WINDOWS VISTA INSTRUCTIONS

If you purchased and downloaded the fonts on our web site, unzip the archive if your browser has not already done so. Select "Control Panel" from the Start menu; select "Appearance and Personalization;" select "Fonts." In the Fonts window, right click in the list of fonts and choose "Install New Font." Navigate to the folder that contains the fonts you want to install. Select the fonts you want to install. Shift-click to select multiple fonts. Press the "OK" button to install the fonts.

WINDOWS XP INSTRUCTIONS

If you purchased and downloaded the fonts on our web site, unzip the archive if your browser has not already done so. Double click on the "Main" icon, then double click on the "Control Panel" icon. Find the "Fonts" icon and double click on it. In the "Fonts" window, go to the "File" menu and select "Install New Font." In the "Drive" window, find the disk and directory that holds your fonts. Your fonts will appear in the "List of Fonts" menu. Click on the font names you wish to install, then click on OK.

OPENTYPE COMMENTS

House Industries collections ship with OpenType fonts. OpenType fonts will work with Macintosh OS 8.1 and above with Adobe Type Manager 4.6 or higher. They will work with Microsoft Windows 95 or higher with Adobe Type Manager 4.1 or higher. The OpenType font files are cross-platform compatible—you can use them on a Mac or PC.

ADOBE TYPE MANAGER/OS 9.22, WINDOWS 98 & 95

For your fonts to work correctly in OS 9.22 and lower or Windows 98 and lower, you must be using Adobe Type Manager version 4.6 or above on the Macintosh and version 4.1 or above on the PC.
